

ALGEBRA TRACK • UNIT 1 • LESSON 1.3 **The Circle Map**

Name: _____

Task 1 – by eye

Pick any **three** cities that are not in a straight line, and write them in the table.
Find the circle through all three: guess the centre, swing, adjust, swing again. **Three times, in three colours.**

Task 2 – properly

Now **construct** one instead of guessing.
1. Perpendicular bisector of one pair.
2. Perpendicular bisector of another pair.
3. They cross at the **centre**.
4. Needle there, pencil on a city, swing.
Leave every arc on the page.

Challenge

Find three cities you **cannot** draw a circle through. Name them, and say why in one sentence.

Circle	The three cities	The centre landed in / near	Radius (cm)
1			
2			
3
